PHYSICS LETTERS A

EDITORS

V.M. Agranovich, Institute of Spectroscopy,
Russian Academy of Sciences,
Troitsk, Moscow obl. 142092, Russian Federation
E-mail: agran@theor.isan.msk.su; Fax: +7 095 3340224
Condensed matter physics, Theoretical physics, Statistical properties of condensed matter

A.R. Bishop, MS-B262, Theoretical Division and Center for Nonlinear Studies, Los Alamos National Laboratory,
Los Alamos, NM 87545, USA
E-mail: phys_let@tdo-serv.lanl.gov; Fax: +1 505 6653003
Nonlinear science, Condensed matter physics

C.R. Doering, MS-B262, Center for Nonlinear Studies,
Los Alamos National Laboratory, Los Alamos, NM 87545, USA
E-mail: phys_let@tdo-serv.lanl.gov; Fax: +1 505 6652659
Nonlinear science, Statistical physics

J. Flouquet, CRTBT/CNRS, Boîte Postale 166,
F-38042 Grenoble Cedex 9, France
Fax: +33 76 855610
Condensed matter physics

A.P. Fordy, Centre for Nonlinear Studies and Department of Applied Mathematical Studies, University of Leeds,
Leeds LS2 9JT, UK
E-mail: amt6za@leeds.ac.uk; Fax: +44 113 2429925
Nonlinear science, Mathematical physics

B. Fricke, Fachbereich Physik, Universität Kassel,
Heinrich-Plett-Strasse 40, 34132 Kassel, Germany
E-mail: pla@physik.uni-kassel.de; Fax: +49 561 8044006
Atomic, molecular and cluster physics

P.R. Holland, School of Interdisciplinary Sciences,
University of the West of England, Coldharbour Lane, Frenchay,
Bristol BS16 1QY, UK
E-mail: phys-ltr@uwe.ac.uk; Fax: +44 117 9762502
General physics, Quantum mechanics, Quantum optics, Gravitation

A. Lagendijk, Van der Waals-Zeeman Laboratorium,
Universiteit van Amsterdam, Valckenierstraat 65-67,
1018 XE Amsterdam, The Netherlands
E-mail: izwart@phys.uva.nl; Fax: +31 20 5255788
Condensed matter physics, Optical physics

M. Porkolab, Plasma Fusion Center, NW17-288,
Massachusetts Institute of Technology, 175 Albany Street,
Cambridge, MA 02139, USA
E-mail: arlington@pfc.mit.edu; Fax: +1 617 2530238
Plasma and fluid physics, Statistical properties of plasmas and fluids

L.J. Sham, Department of Physics, 0319, University of California,
San Diego, 9500 Gilman Drive, La Jolla, CA 92023-0319, USA
E-mail: lusham@ucsd.edu; Fax: +1 619 4590336
Condensed matter physics

J.P. Vigier, Laboratoire de Gravitation et Cosmologie Rélativistes,
Université Pierre et Marie Curie, Tour 22-12, 4ème étage,
Boîte 142, 4 Place Jussieu, 75252 Paris Cedex 05, France
Fax: +33 1 40510661
General physics, Quantum mechanics

Aims and scope
Physics Letters A ensures the rapid publication of short communications in all fields of Physics, excluding Nuclear Physics and Particle Physics.

Abstracted/indexed in:
Chemical Abstracts; Current Contents: Physical, Chemical and Earth Sciences; Engineered Materials Abstracts; INSPEC; Metals Abstracts; Physics Briefs

Subscription information 1996
PHYSICS LETTERS A (ISSN 0375-9601) and PHYSICS LETTERS B (ISSN 0370-2693) will each be published weekly. For 1996 13 volumes, volumes 211–223 (78 issues altogether) of Physics Letters A have been announced. For 1996 25 volumes, volumes 365–389 (100 issues altogether) of Physics Letters B have been announced. The subscription prices for these volumes are available upon request from the Publisher. PHYSICS REPORTS (ISSN 0370-1573) will be published approximately weekly. For 1996 13 volumes, volumes 264–276 (78 issues altogether) of Physics Reports have been announced. The subscription price for these volumes is available upon request from the Publisher.
A combined subscription to the 1996 issues of Physics Letters A, Physics Letters B and Physics Reports is available at a reduced rate.
Subscriptions are accepted on a prepaid basis only and are entered on a calendar year basis. Issues are sent by SAL (Surface Air Lifted) mail wherever this service is available. Airmail rates are available upon request. Please address all enquiries regarding orders and subscriptions to:

Elsevier Science B.V.
Order Fulfillment Department
P.O. Box 211, 1000 AE Amsterdam
The Netherlands
Tel. + 31 20 4853642, Fax: +31 20 4853598

Claims for issues not received should be made within six months of our publication (mailing) date.

US mailing notice – Physics Letters A (ISSN 0375-9601) is published weekly by Elsevier Science B.V., P.O. Box 211, 1000 AE Amsterdam, The Netherlands. Annual subscription price in the USA is US$ 3203.00 (valid in North, Central and South America only), including air speed delivery. Second class postage paid at Jamaica, NY 11431.
USA POSTMASTERS: Send address changes to Physics Letters A, Publications Expediting, Inc., 200 Meacham Avenue, Elmont, NY 11003. AIRFREIGHT AND MAILING in the USA by Publications Expediting, Inc., 200 Meacham Avenue, Elmont, NY 11003.

♾ The paper used in this publication meets the requirements of ANSI/NISO 239.48-1992 (Permanence of Paper).

Box 521, 1000 AM Amsterdam, The Netherlands.

Special regulations for authors. Upon acceptance of an article by the journal, the author(s) will be asked to transfer copyright of the article to the publisher. This transfer will ensure the widest possible dissemination of information.

Special regulations for readers in the USA. This journal has been registered with the Copyright Clearance Center, Inc. Consent is given for copying of articles for personal or internal use, or for the personal use of specific clients. This consent is given on the condition that the copier pays through the Center the per-copy fee stated in the code on the first page of each article for copying beyond that permitted by Sections 107 or 108 of the US Copyright Law. The appropriate fee should be forwarded with a copy of the first page of the article to the Copyright Clearance Center, Inc., 222 Rosewood Drive, Danvers, MA 01923, USA. If no code appears in an article, the author has not given broad consent to copy and permission to copy must be obtained directly from the author. The fees indicated on the first page of an article in this issue will apply retroactively to all articles published in the journal, regardless of the year of publication. This consent does not extend to other kinds of copying, such as for general distribution, resale, advertising and promotion purposes, or for creating new collective works. Special written permission must be obtained from the publisher for such copying.

No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. Although all advertising material is expected to conform to ethical standards, inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made of it by its manufacturer.

PHYSICS LETTERS A

Instructions to Authors (short version)

(A more detailed version of these instructions is published in the preliminary pages to each volume.)

Submission of papers

Contributions in triplicate should be sent to the editor whose expertise covers the research reported and with whom the author can communicate efficiently. Editorial Board, addresses and primary interests are given on page 2 of the cover. In case of doubt, contributions can be submitted directly to the Publisher at the address below. However, it should be realized that such papers will have to be forwarded to one of the Editors, which will result in some delay.

Original material. By submitting a paper for publication in Physics Letters A the authors imply that the material has not been published previously nor has been submitted for publication elsewhere and that the authors have obtained the necessary authority for publication.

Refereeing. All contributions will be refereed. The Editors reserve the right to edit contributions, whenever necessary, and to refuse papers which in their opinion do not satisfy conditions as to standard or contents. Linguistic corrections not affecting the meaning will be carried out by the Publisher.

Types of contributions

The *length* of the papers is not formally limited, but expedient and compact formulation, appropriate to a letters journal, is expected. The Editor may require the removal of figures, lengthy introductions, derivations, descriptions of apparatus or speculations if these are not essential for the efficient and clear communication of important new results. An *abstract* of less than 50 words is required.

Manuscript preparation

All manuscripts should be written in good English. The paper copies of the text should be prepared with double line spacing and wide margins, on numbered sheets. See notes opposite on electronic versions of manuscripts.

Structure. Please adhere to the following order of presentation: Article title, Author(s), Affiliation(s), Abstract, PACS codes and keywords, Main text, Acknowledgements, Appendices, References, Figure captions, Tables.

Corresponding author. The name, complete postal address, telephone and fax numbers and the e-mail address of the corresponding author should be given on the first page of the manuscript.

Classification codes/keywords. Please supply one to four classification codes (PACS and/or MSC) and up to six keywords of your own choice that describe the content of your article in more detail.

References. References to other work should be consecutively numbered in the text using square brackets and listed by number in the Reference list. Please refer to the more detailed instructions for examples.

Illustrations

Illustrations should also be submitted in triplicate: one master set and two sets of copies. The *line drawings* in the master set should be original laser printer or plotter output or drawn in black india ink, with careful lettering, large enough (3–5 mm) to remain legible after reduction for printing. The *photographs* should be originals, with somewhat more contrast than is required in the printed version. They should be unmounted unless part of a composite figure. Any scale markers should be inserted on the photograph, not drawn below it.

Colour plates. Figures may be published in colour, if this is judged essential by the Editor. The Publisher and the author will each bear part of the extra costs involved. Further information is available from the Publisher.

After acceptance

Notification. You will be notified by the Editor of the journal of the acceptance of your article and invited to send an electronic version of the accepted text to the Publisher.

Copyright transfer. You will be asked to transfer the copyright of the article to the Publisher. This transfer will ensure the widest possible dissemination of information.

No proofs. In order to speed up publication, all proofreading will be done by the Publisher and proofs are *not* sent to the author(s).

Electronic manuscripts

The Publisher welcomes the receipt of an electronic version of your accepted manuscript (preferably encoded in LaTeX). If you have not already supplied the final, revised version of your article (on diskette) to the Journal Editor, you are requested herewith to send a file with the text of the accepted manuscript directly to the Publisher by e-mail or on diskette (allowed formats 3.5" or 5.25" MS-DOS, or 3.5" Macintosh) at the address given below. Please note that no deviations from the version accepted by the Editor of the journal are permissible without the prior and explicit approval by the Editor. Such changes should be clearly indicated on an accompanying printout of the file.

Author benefits

No page charges. Publishing in Physics Letters A is free.

Free offprints. The corresponding author will receive 50 offprints free of charge. An offprint order form will be supplied by the Publisher for ordering any additional paid offprints.

Discount. Contributors to Elsevier Science journals are entitled to a 30% discount on all Elsevier Science books.

Contents Alert. Physics Letters A is included in Elsevier's prepublication service Contents Alert and CoDaS.

Classification codes and Keywords

Elsevier Science NL invites the submission of classification codes and keywords for this journal.

Classification codes and keywords will enhance the disclosure of the articles published in this journal.

Authors are requested to submit at least one and at the most four classification code numbers, and up to six keywords of their own choice.
Both the classification codes and the keywords should be included on the abstract page when the manuscript is submitted.
The codes and keywords will appear below the abstract in the printed article.

The classifications codes in use for this journal are the Physics and Astronomy Classification Scheme (PACS '96) and the Mathematics Subject Classification Scheme (MSC '91). Both schemes are accessible on the Elsevier Home Page (http://www.elsevier.nl).

PACS is also available online on the American Institute of Physics Web server (http://www.aip.org/pacs). MSC is available on both the American Mathematical Society e-math information service (http://e-math.ams.org/msc) and on the server of Zentralblatt für Mathematik in Germany (http://www.zblmath.fiz-karlsruhe.de/class).

Elsevier Science acknowledges the American Institute of Physics, the American Mathematical Society and Zentralblatt für Mathematik for their kind permission to reprint the PACS and MSC classification schemes and to load these on to the Elsevier Web server.
